

Polar Accelerator

Product Number:

900-4 (quart)

Polar Accelerator may be used in **ANY** urethane or polyurethane clear to speed up the dry time. Will not cause dieback or cause the clear to buff hard. May also be used in **ANY** 2K type urethane primer. This product will decrease pot life significantly in any product. 2k primer pot life should be watched closely when using.

Mixing:

Add 1-4 oz per mixed quart of clear or 2K type urethane primer.
